

PIPING SERVICES

5959 South Harlem Avenue
Chicago, IL 60638
773-784-0000

Hayes Mechanical has set the standard for mechanical construction by providing clients with the highest quality, excellent value, and timely execution of their projects. Our clients are able to rely and trust in our knowledge and work together toward an innovative yet cost effective approach to their mechanical needs that will allow them to run optimally and efficiently in producing a quality product faster, better and safer.

Our Project Teams include experienced leaders within the industry who will supervise each project to completion. Our craftspeople are trained to execute routine and emergency maintenance of piping systems and equipment. We are prepared to perform new construction, major shutdowns and emergency or routine maintenance.
